

Module 18.8, 18.9, and 18.10: Cognitive Impairment

Has anyone discussed with a health care professional, increases confusion or memory loss?

Have you or this person received treatment such as therapy or medications for confusion or memory loss?

Has a health care professional ever said you have, or this person has Alzheimer's disease or some other form of dementia?

(Figure in parenthesis is the sample size for that group)	###		Discussed with Healthcare professional	Received treatment for confusion/memory loss [among 41]	Yes, Alzheimer's Disease	Yes, some other form of dementia but not Alzheimer's disease	No diagnosis has been given
